

The Team

Our 2 captains have both many years of experience in catching large fish on the Royal Charlotte Bank.

With 2 World Record Marlin caught just south of the Charlotte Bank, 3 Blue Marlin over 1000lb weighed here and several over 800 lbs & 900 lb, we believe the record will fall and it will happen here in Canavieiras Brazil.

Raising 20 Marlin a day and 4 bites a day is our spectacular marlin fishing. Averaging at least the catch of one large blue marlin a day (most over 500 lbs) with white marlin & sailfish mixed in and swordfish on the Bank making grand slams and super grand slams always possible.

A day here is full of surprises with many Dorado (Mahi Mahi) averaging 20 to 30 lbs and many up to 60 lbs. Amberjack are caught by Jigging or live baiting and reach easily over 80 lbs here. Wahoo also abundant and averaging 40 to 60 lbs. Large schools of Tuna often running 20 miles along the Charlotte bank make for a tiring day for many of our clients. Our crew is professionally trained and well experienced in fishing for large marlin and we can adapt to your fishing or personal needs.
