

The Gear

We are fishing with all brand new Shimano Reels 130 & 80 lbs for the Monster Marlin, 50 & 30 lbs for those that like a Challenge and with our Standup Rods and Harnesses you will enjoy the Challenge even more.

- 15lbs gear for the Record Chasers. This gives opportunities for the Ladies, because IGFA20 & 16 lbs line class world records are breakable here.
- Spinning Reels for Jigging Amberjack and those large Dorados.
- Spinners and Bait Casting Reels for chasing those Snook and Peacock Bass upriver.
- The latest in Electric reels from light Jigging to Deep Sea Bottom fishing.
- The Boat has 12 volt Bars for your electric reels when you like to bring your own gear to finally give it a work out.
- Rupp Outriggers and of course Downriggers for chasing those fish hanging in the deep.
- The best fishing lines, lures, snaps, etc. everything imported from the United States.

We must not forget the most important equipment, one that really makes the difference: the tuna tube to keep baitfish like tuna alive.

This combined with Circle hooks for those who want to tease the Marlin up close to the boat and get that thrill and adrenalin of feeding a large Blue Marlin and watching the aggressive attack only a few meters behind the boat. After that of course tagging and releasing the Marlin in a healthy state.
